

Safety Precautions

To ensure safe and secure use of the product, please be sure to read and follow the instructions before use. For details on how to use each product, please refer to the instruction manual.

Use/Purpose

⚠️ Caveat

- ! The cloth products listed in this catalog are for general industrial use. Please be sure to consult with us if you wish to use it for special purposes or conditions.
- ! The lifespan and safety are greatly affected by the application, usage conditions, installation method, and environment. If used in parts, please check carefully by the user.

- 🚫 Do not use in special environments that contain organic solvents, plasticizers, acids, alkalis, or other chemicals. This product is not chemical resistant.

⚠️ Caution

- ! Do not use for any purpose other than that specified, as it may result in injury.
- 🚫 Please do not resell this product to a third party. We are not responsible for any defects that are discovered or occur after resale.
- ! Do not use the product in close contact with the other party. There is a risk of discoloration or deterioration due to precipitation or migration of contents.

Function/Performance

⚠️ Caveat

- 🚫 Do not use this product for medical or food equipment.
- ! Do not use this product for purposes where it will come into direct contact with your body for a long period of time.

Others

(*) The data in this catalog are test values and are not standard or guaranteed values.

Storage/Transportation

⚠️ Caveat

- ! Heavy products should be transported using tools and machinery rather than by human power alone.
- ! When lifting the product, use a crane or lifting device that is appropriate for the weight of the product.

- 🚫 Do not store near heat sources such as stoves or devices that generate electric sparks. This product is strictly prohibited from being exposed to fire.
- ! Do not move the product by rolling it. There is a risk of getting stuck under the product.

Others

- ! Please store it indoors in an environment that avoids high temperatures and humidity to avoid direct sunlight, wind and rain.

- ! Do not drag or pull across the ground.
- ! Do not store or leave the product for long periods of time outside the temperature range of 0 to 40°C and humidity range of 20 to 80%.
- 🚫 When transporting the product with a forklift, do not poke the product with the forklift's claws.
- ! Do not store the rubber parts in close contact with each other for a long period of time.
- ! Do not bend or locally deform the product.

(*) Depending on the packaging form and storage conditions, the product may have some curling characteristics.

(*) Due to manufacturing reasons, the product may have some distortion, adhesion, or strain, and may shrink when unpacked and unfolded.

Explanation of Display

⚠️ **Caveat** Ignoring this indication and handling the product incorrectly may result in death or serious injury.

⚠️ **Caution** Ignoring this indication and handling the product incorrectly may result in personal injury and property damage.

🚫 **What not to do**

! **Things you must do**

Installation/Use

⚠️ Caveat

- ! When processing this product by polishing, cutting, etc., please wear safety glasses and a mask. There is a possibility that smoke from polishing and chips from cutting can harm the human body.
- ! If polishing powder or cutting powder from this product accumulates, remove it. Accumulation may ignite spontaneously, causing burns and fires.

- 🚫 Do not bend the product forcibly, as this may cause the product to become warped or scratched, resulting in premature breakage.

⚠️ Caution

- ! If you cut or process this product and use it as a part, please check the suitability and safety for the relevant use on the user side.
- ! If oil or water drops get on the product, wipe it off immediately with a dry cloth. If oil or water droplets adhere to the surface, you may slip and fall. Also, if oil or dirt is left on the surface, it can cause deterioration.

Others

- ! Please read the instruction manual and specifications carefully and fully understand the contents before performing assembly, operation, maintenance, etc.
- ! Please select a product suitable for the design temperature, pressure and fluid used.
- ! Heat resistance and pressure resistance may vary depending on the fluid, so please check by the fluid used.
- ! When installing the product, ensure a safe and easy-to-work space.
- ! Please ventilate the room well when you firstly start using the product. It will have a distinctive rubber smell, but the smell will disappear in a few days.

Maintenance/Inspection/Replacement

⚠️ Caveat

- ! Please check the following once every six months. Rubber degrades with time.
*However, we recommend that you unconditionally replace any parts that have been installed for more than 10 years.
① Presence of cracks or deterioration
② Presence of elongation, shrinkage and discoloration

Others

(*) UV rays, chemicals such as solvents in the atmosphere, ozone, etc. may accelerate deterioration over time. We recommend that you immediately replace depending on the situation.

Handling After Use

⚠️ Caveat

- 🚫 Do not burn the product or its ends. Harmful gases may be generated.

Others

- ! When disposing of the product and its ends, please comply with the industrial waste laws and ordinances of each region.

Disclaimer Please use the product correctly by following these precautions. Failure to follow the warnings, precautions, and prohibited actions described, or using the product improperly, may result in damage to the product, damage to surrounding machinery, and/or personal injury. We shall not be liable for any damages or other losses incurred in such cases. In addition, we cannot be held responsible for any modifications to the product made by the customer as this is outside the scope of our warranty.
